Southwark Council ("the council") adopted its cemetery strategy, in 2012, which sets out the council's commitment to local burial in the borough. As part of this strategy, the council intends to develop an area of land in Camberwell New Cemetery to make it more suitable for burial use. Southwark's Cemetery Strategy can be viewed in its entirety online (www.southwark.gov.uk/cemeteriesplans). To improve access to the development site the council needs to create a path across some existing grave space. Planning permission was granted for this development in Oct 2015, details can be viewed online (<http://planbuild.southwark.gov.uk:8190/online-applications>). The council also made a petition to the Consistory Court because the works will be on consecrated land. A faculty was issued by the court on 21 February 2017. Now that both planning & faculty permissions have been granted, memorials listed below will need to be removed.

Notice is hereby given that, under Articles 16(1), 16(2) and Schedule 3 of the Local Authorities' Cemeteries Order 1977, the memorials on graves listed below will be removed from the cemetery to facilitate new footpaths on Section D1 in Camberwell New Cemetery:
